-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

### **DETAILED ACTION**

The following communication is in response to Applicant's amendment filed on March 3, 2005.

#### ***Status of Claims***

Claims 1-2,7-22,27-29 are currently amended. Claims 3-6,24-26,30 are previously presented. Claim 23 is cancelled. Claims 1-22 & 24-30 are therefore currently pending.

#### ***Prosecution History***

The previous examiner to this application issued a non-final rejection, which was mailed June 17, 2004. She then issued a *Quayle* action, indicating allowability, which was mailed December 30, 2004. The current examiner thanks the applicant for amending the claims to correct the informalities described in the *Quayle* action but must regrettably withdraw the indication of allowability pursuant to the rejection detailed below.

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA

1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b). Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-30 are provisionally rejected under the judicially created doctrine of double patenting over Claims 1-3,5,7-9,11-14,15-16 of copending Application No. 11/1689669. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows: the claims of the instant application relate to comparing transaction data based on internet identification, with historical data and blending the results with statistical modeling in consideration of merchant specific values, while the claims of the copending application specify "parameters" of comparison, history check, internet addressing and identification, and merchant supplementation.

Claims 1-30 are additionally provisionally rejected under the judicially created doctrine of double patenting over Claims 17-20,22-23,28-30 of copending Application No. 09/442106. This is a provisional double patenting rejection since the conflicting claims have not yet been patented. The subject matter claimed in the instant application is fully disclosed in the referenced copending application as follows: the claims of the instant application relate to comparing transaction data based on internet identification, with historical data and blending the results with statistical modeling in consideration of merchant specific values, while the claims of the copending application specify verifying internet identification information along with physical address information, retrieving other transaction data, creating a fraud score based on the verifications, completing history checks, receiving merchant information and supplementation.

Applicant should demonstrate why the instant claims are patentably distinct from those presented in the pending applications.

### ***Conclusion***

THIS ACTION IS NON-FINAL. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Alpert whose telephone number is (571) 272-6738.
